Summary

Passionate and motivated aspiring web developer with a solid foundation in HTML, CSS, and JavaScript, and growing expertise in React. Experienced in building responsive, user-friendly web interfaces with a strong understanding of core Data Structures and Algorithms. A fast learner and collaborative team player, eager to tackle real-world challenges and continuously grow through hands-on coding projects.

Education

Chandigarh University, Mohali, Punjab

- Bachelor of Engineering in Computer Science and Engineering | CGPA: 7.69 2022-2026

D.A.V Co-Operative Senior Secondary School, Khalari, Ranchi

- Senior Secondary (XII) – CBSE | Percentage: 77% 2020-2021
- Secondary (X) – CBSE | Percentage: 91.6% 2018-2019

Technical Skills

- Languages:** HTML, CSS, JavaScript, C++, Python (Basics)
- Libraries & Frameworks:** Bootstrap, React, Node.js, Express.js, Tailwind
- Database & Querying:** MySQL, MongoDB
- Version Control:** Git, GitHub
- Tools & Technologies:** Visual Studio Code, Vercel
- Web Development & Backend:** REST API Development and Integration, JWT
- AI:** GenAI Integration, “Gemini, OpenAI”

Interpersonal Skills

- Creative Thinking
- Team Management
- Analytical & Problem-Solving Skills
- Conflict Resolution
- Effective Communication

Experience & Projects

- Weather Website ↗** | HTML | CSS | JavaScript | Weather API | **Jan 2024 – Feb 2024**
Created a weather forecast application that displays real-time weather data based on user input, showcasing API integration and dynamic data rendering.
- Language Translator ↗** | HTML | CSS | JavaScript | **August 2024**
Built a web-based language translator that allows users to translate text between multiple languages, highlighting API integration and an intuitive UI design.
- Food Recipe Website ↗** | MongoDB | Express.js | React.js | Node.js | **Jan 2025 – Feb 2025**
Developed a full-stack food recipe web application using MongoDB | Express.js | React.js | Node.js. Implemented user authentication with JWT for secure login and registration. Designed responsive and visually appealing UI using React.js and Bootstrap.
- Blank Page an AI Powered Learning Website** | MongoDB | Express.js | React.js | Node.js | **September 2025**
Developing a full-stack AI-powered learning platform using the MERN stack. Integrated the Gemini API for AI-assisted course creation and management. Implementing authentication with JWT (in progress). Designed a responsive and modern UI using React.js and Bootstrap. Basic course creation features are live, with further functionality under development.

Certifications

- Full Stack Web-Development Course | Udemy ↗
- MySQL Certification course | SimpliLearn ↗
- Python for Everybody | Coursera ↗
